Designed by award winning world class International Architectural Firm Benoy, this luxurious marina not only delivers a premier docking experience but offers a coastal community of waterfront residences, a hotel and amenities that offers guests and residents a comprehensive seaside lifestyle.

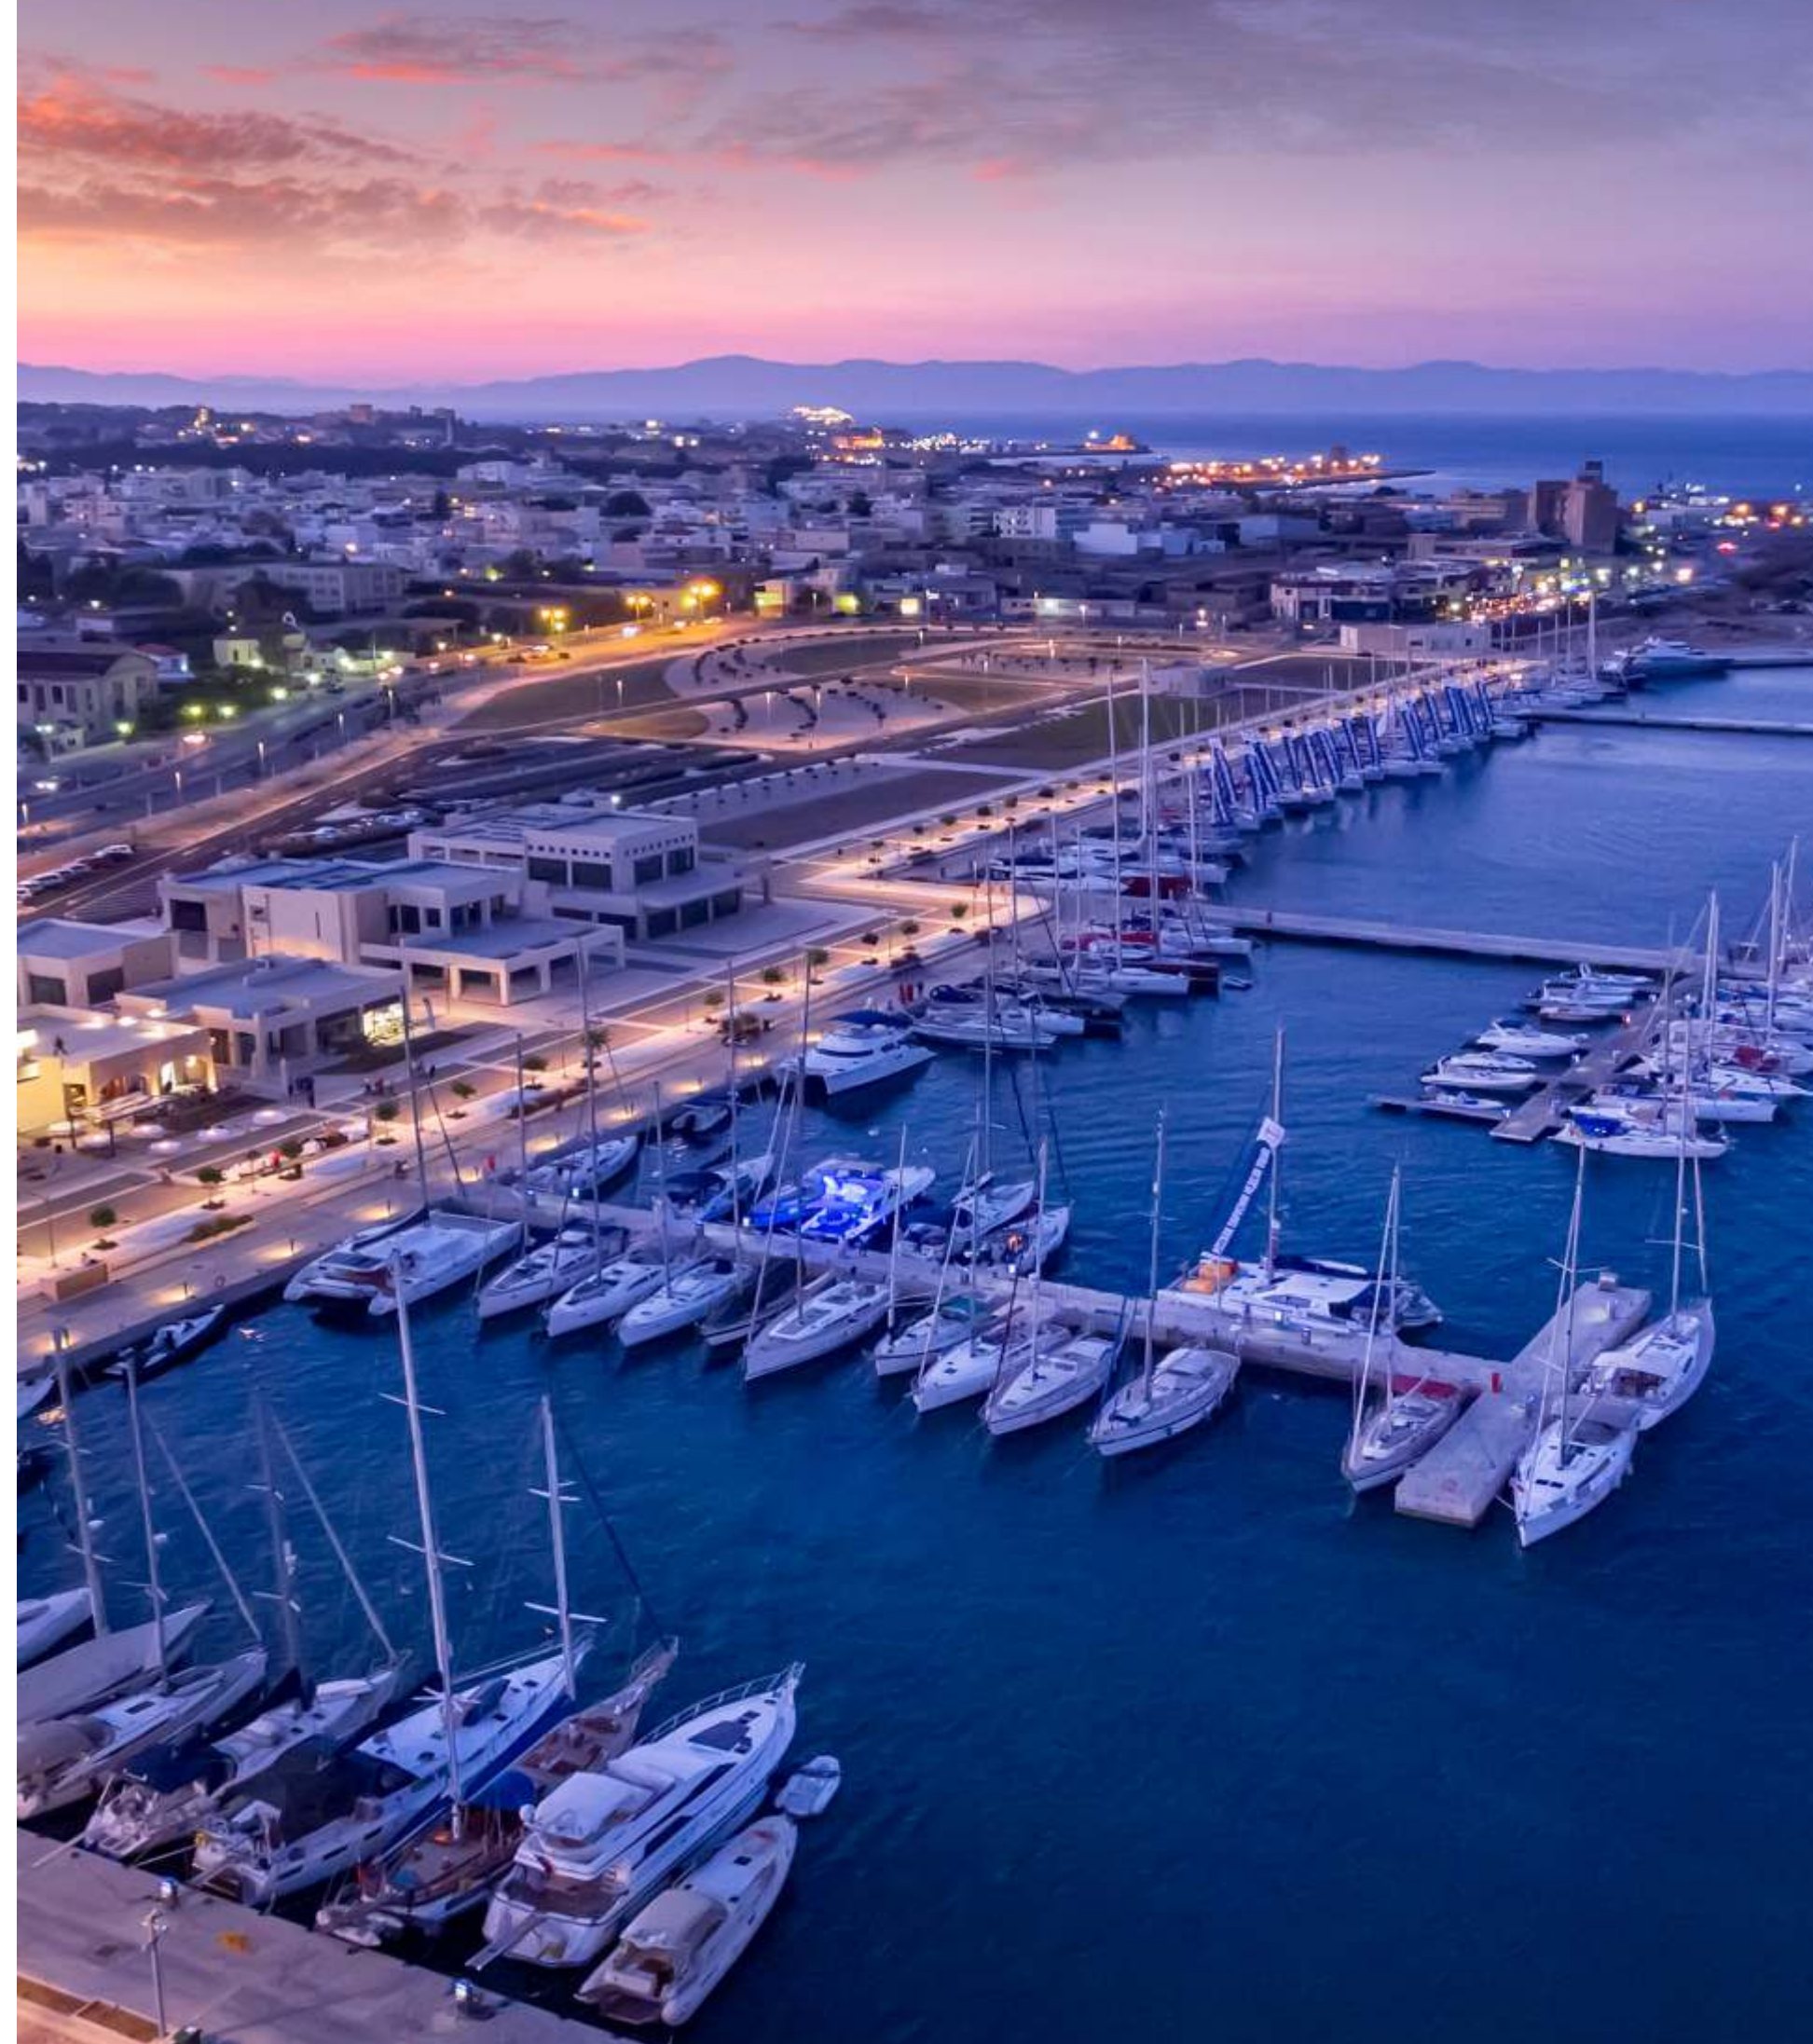

INTRODUCING THE MARINA

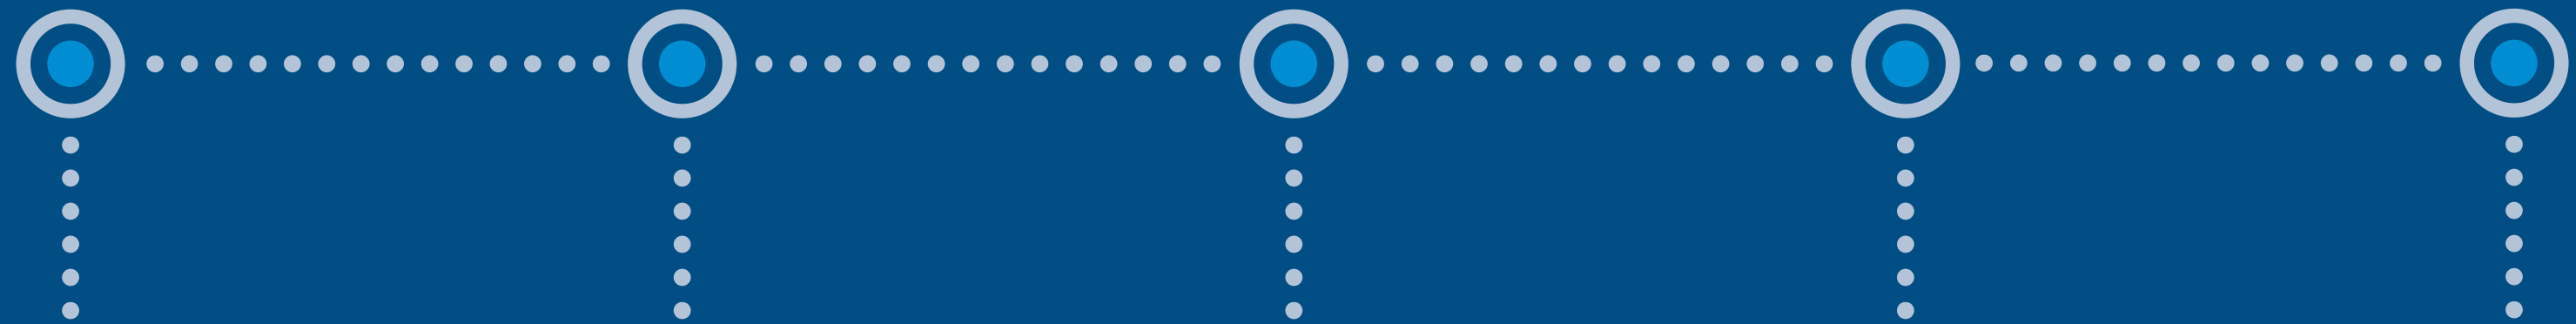

Designed by award winning world class International Architectural Firm Benoy, Rhodes Marina is one of the most prestigious, upmarket developments available in the Mediterranean. It is situated on the largest of the Dodecanese islands in Greece, known for its spectacular natural beauty that seamlessly integrates with a modern cosmopolitan lifestyle.

This ultra-luxurious seaside project offers superior yachting facilities, elegant retail outlets with fine dining and exhilarating leisure pursuits.

Private residences with coveted views of the crystal-clear sea and direct access to the hub of unique attractions makes it the destination of choice for boating enthusiasts, tourists, and residents.

OUR VISION

LUXURIOUS LIVING

Combine the best in waterfront living with unparalleled luxury.

EXCLUSIVE RESIDENCES

Creating an iconic waterside development that will be a top landmark project in Europe.

PRESTIGIOUS MARINA

Design an integrated marina where discerning yacht owners, residents and visitors can enjoy understated luxury.

COSMOPOLITAN LIFESTYLE

Provide incomparable boating, recreation, dining, and social experiences that exemplify the highest level of cosmopolitan living.

RHODES REDEFINED

Offering exclusive opportunities to enhance the reputation of the island as an exceptional location.

A destination of choice for boating enthusiasts, tourists, and residents with direct access to the hub of unique attractions.

FOR THOSE WHO LIKE TO
COMBINE ADVENTURE
WITH LUXURY.

LOCATION

Rhodes is located in the south-east Aegean and is the largest island in the Dodecanese, the 4th largest island in Greece and the 9th largest in the Mediterranean Sea and a popular destination for sun-seekers and beach lovers. Greece is also one of the most prominent sailing hubs and yachting destinations in the Mediterranean. Located at the crossroads of two major sea routes of the Mediterranean and Aegean Sea, it is the meeting point of three continents.

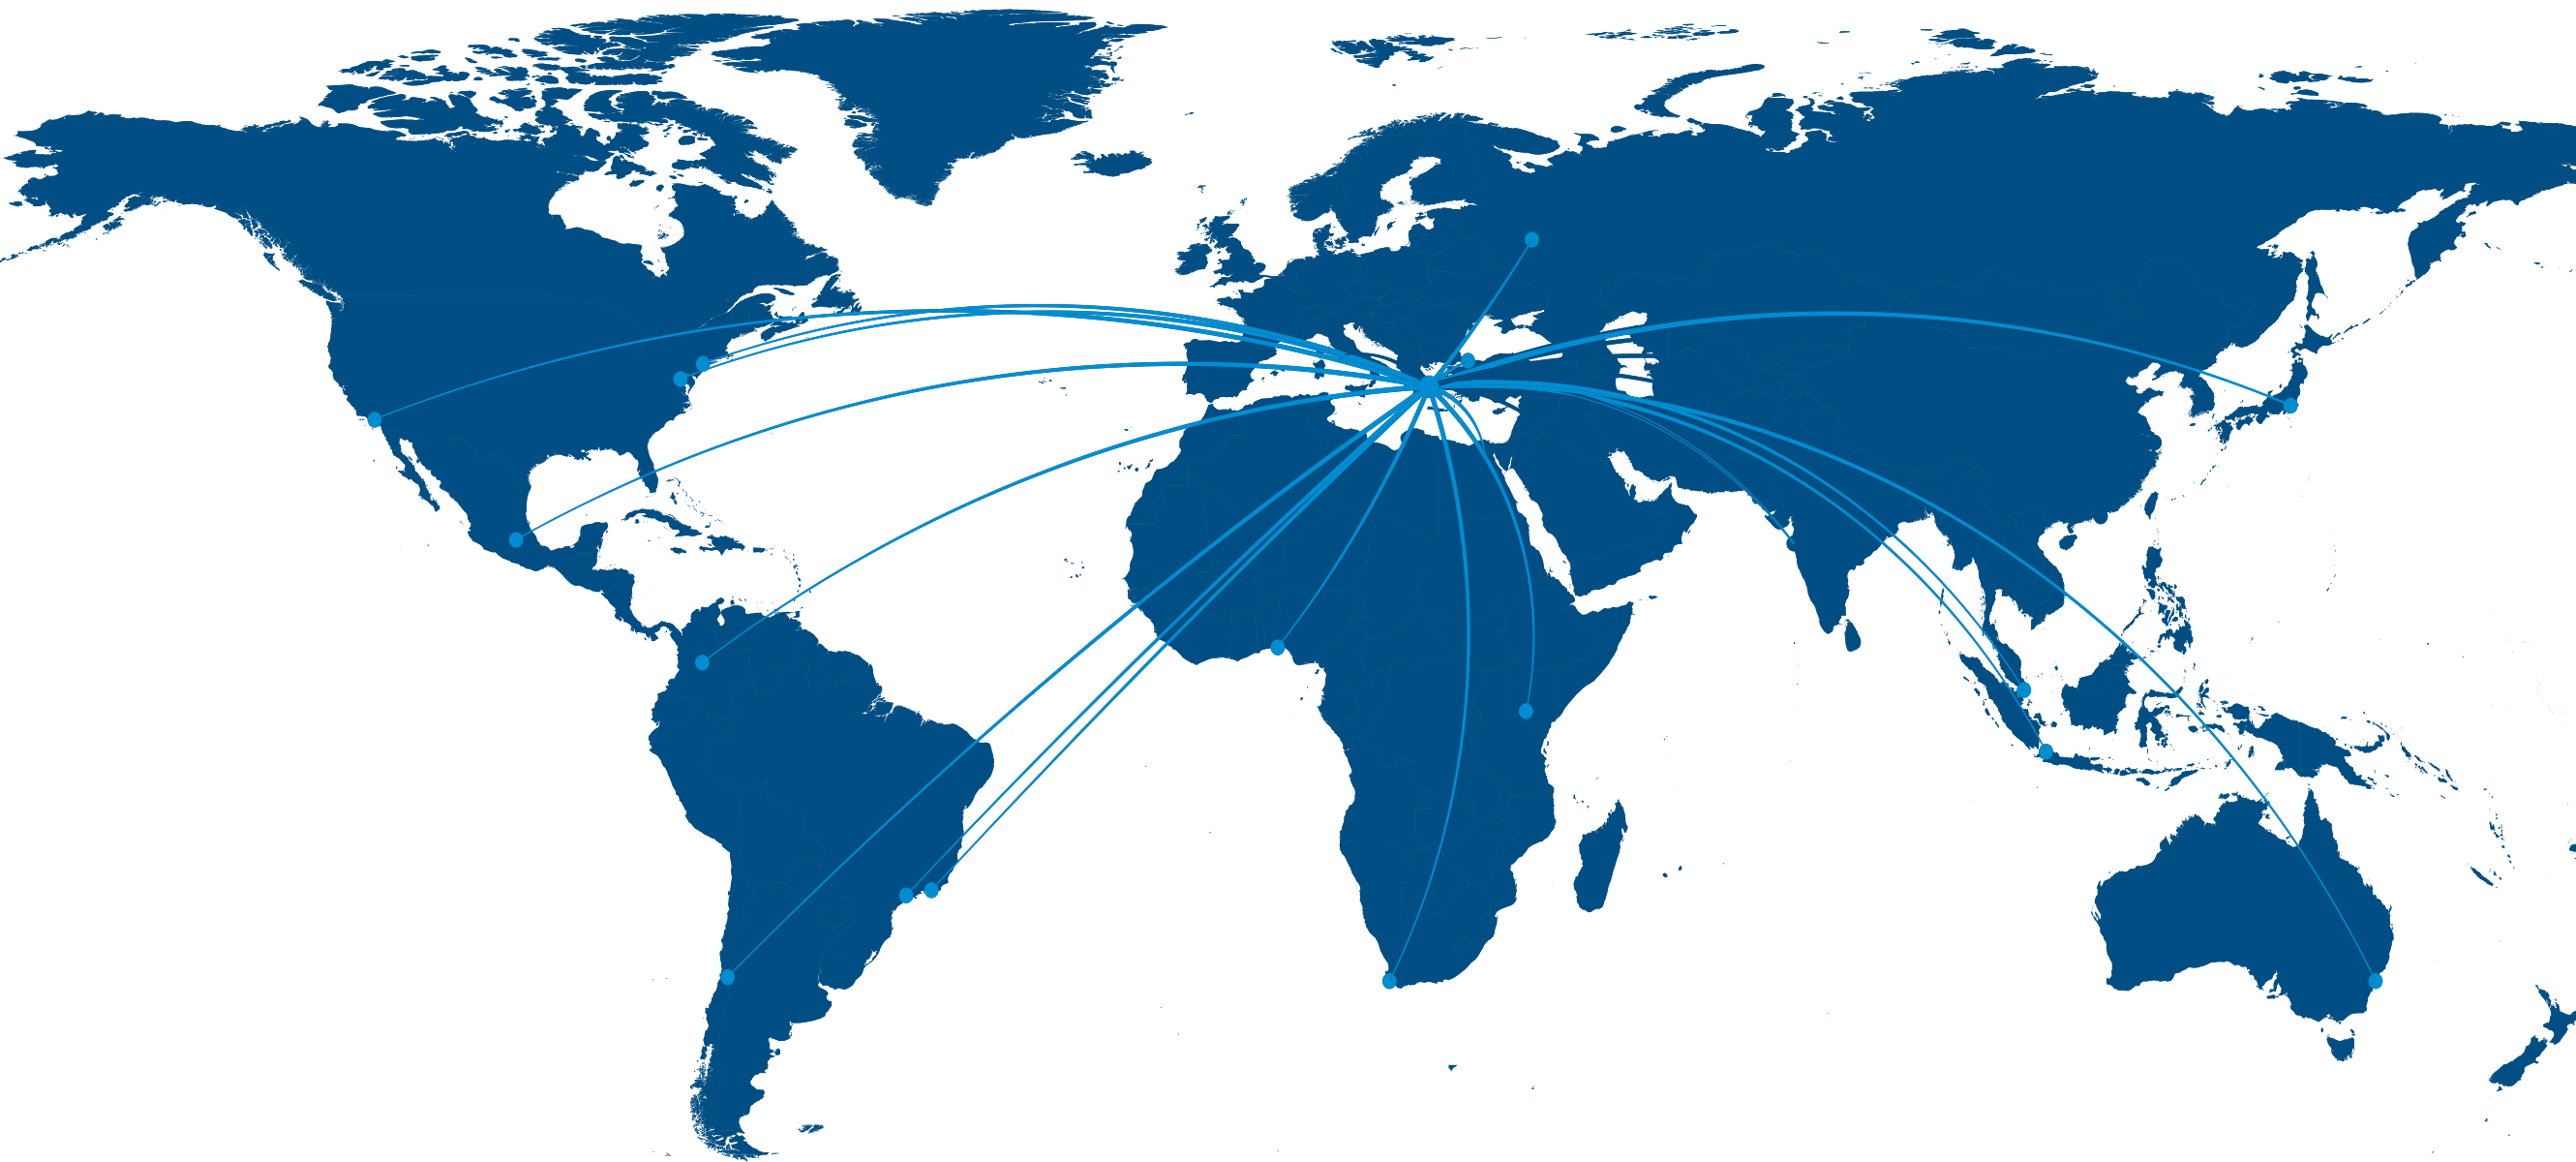

A sizeable international airport offers direct flights to major European cities, making it one of the most strategic locations in the region. With over three hundred days of sunshine a year and moderate temperatures throughout the seasons, there is never a bad time to enjoy the relaxed Greek way of life it offers. The community is diverse with a multicultural heritage that dates back 14 centuries. Warm, friendly islanders, welcome visitors, and residents from all over the world. Rhodes Island offers an idyllic mix of striking natural beauty, excellent facilities, and unspoiled tradition.

With an uninterrupted line of golden beaches and lush green valleys at the foot of the imposing Mt. Ataviros - Rhodes is filled with magical landscapes that will rejuvenate your body and soul.

MARINA MOORING THE DOCKING EXPERIENCE

Impeccable standards for a curated lifestyle

The world-class, mixed use Rhodes Marina offers a safe and fully functional base for short-term and extended stays. It is the perfect starting point for travel in the Aegean and Mediterranean Sea and is ideally located near to the main commercial port with regular ferry itineraries. The International Airport that serves millions of visitors from all around the world is also just twenty minutes away.

Designed by master-planners and principal engineers to heighten the berthing experience this marina excels in high quality service, superior facilities, and a distinctive infrastructure. Everything has been carefully designed to ensure a secure berthing experience performed in the utmost safety, comfort, and convenience.

Most marinas in the Mediterranean rely on the infrastructure of the nearby city or town, but Rhodes Marina has been designed to offer a seamless transition between land and sea by offering land base services and facilities as you disembark.

SUSTAINABILITY

Committed to harnessing and protecting the natural beauty of our marina surroundings, for the enjoyment of all.

On land and water, from design to operations, Rhodes Marina are committed to preserving the harbour and local environment. Exercising deep respect for the marine ecosystem and natural beauty of the sea, they recognize the importance of sustainability and environmental responsibility.

Rhodes Marina is passionate about raising awareness of environmental policies and introducing conscious practices for the responsible use of the sea. These steps ensure a prolonged and positive impact on the environment as well as maintaining sustainable tourism. Rhodes Marina developed policies and direct-action projects that include but are not limited to:

- ⦿ Electricity production through renewable sources such as photovoltaic systems etc.
- ⦿ To collect carbon dioxide for reuse
- ⦿ To only use electric vehicles in the Marina
- ⦿ To build a pipeline-based seawater renewal system
- ⦿ To manage waste and bilge water from vessels
- ⦿ To collect and recycle rubbish
- ⦿ To collect and recycle sails
- ⦿ To operate an Action Plan for addressing any environmental contamination
- ⦿ To protect the Marina from the residues of paints used for vessels.

Technology

Optimising the use of new technology was part of the vision designing the Rhodes Marina.

Integrated technical solutions to manage the marinas resources and facilities have been introduced to heighten the overall berthing experience. Fibre optic internet and cable connection to satellite and terrestrial TV is on hand. Direct IP connection is available at the berth terminals for immediate and secure data connections using both wire and wireless data networks that provide high-speed internet feeds.

Guests can utilize the marina's specialized mobile application for personalized communication and access all the information they need from their smartphone, tablet, or laptop.

Discerning boat owners prefer a secure environment that preserves the visual pleasure of the waterfront with unobtrusive security. Rhodes Marina ensures real time, 24x7 supervisory control that is discreet but vigilant. There are robust systems in place for emergencies, Hi-tech physical surveillance systems such as thermal imaging and underwater cameras are in use along with, alarms, CCTV and fire detection. Access is controlled and consistently monitored. Owners are able to check on their vessel in real time with the VIP CCTV system.

A well-run marina sets the tone for the overall boating adventure. Rhodes Marina ensures your docking experience is efficient and safe by providing a well-maintained, superbly managed environment with iconic facilities.

INVESTMENT OPPORTUNITY

An unsinkable Investment.

Marina developments are synonymous with mega revenues. The super-yacht industry boasts record international sales and there is a high demand for berths in top Mediterranean locations. Owners in prime waterfront settings, specifically in marinas, enjoy a continual income stream from both property sales and rentals.

There is a growing demand from Yacht owners looking to invest in a combination of property and berthing; as well as buyers seeking a waterfront community lifestyle. Currently there is a constrained supply of high-end projects that are landmarked like the Rhodes Marina. With demand outstripping supply at the top end of the market, marina investors hold enviable pricing power.

The real estate they occupy is always going to be a prime location which automatically minimizes the risk of their investment.

Clustered around a stunning yacht basin, this development has perfected the balance of driving foreign investment whilst protecting the natural environment. Recognised as one of the most exclusive regions in Greece with its Mediterranean flair, perfect climate, and varied landscape it is a magnet for international investors who recognise that marinas are not only a place to park boats but a preferred lifestyle.

INVESTMENT OPPORTUNITY

All property investments are eligible for the Greek Golden Visa Programme which is one of the most beneficial residence-by-investment programs in Europe. Allowing unconditional stay in Greece and travel in the 26 Schengen countries it offers several unmatched privileges to its applicants. This sought-after benefit along with the popular location and relative scarcity of this kind of high-end opportunity - makes the Rhodes Marina a compelling business investment.

This rapidly growing niche sector sees a variety of investment motivations from the desire to own a family-friendly home, high-end berthing for a yacht, and the prospect of profitable returns generated by rental income. The cosmopolitan appeal of the island is a key factor and growing demand from tourists means rental yields remain steady and attractive. In addition, mixed use marinas offer many other income streams that are diversified and reliable.

High Revenues

The super-yacht industry boasts record international sales and there is a high demand for berths in Mediterranean locations

Growing demand

There is a growing demand from Yacht owners looking to invest in a combination of property and berthing

Golden Visa

All property investments are eligible for the Greek Golden
